Comprehensive Overseas Student Health Cover
If you’re planning the trip of a lifetime to study in Australia, you may need to arrange Overseas Student Health Cover (OSHC) to help pay for your hospital and medical costs while you’re away. This is because Australia’s national health care system, called Medicare, may not cover you.

Medibank is Australia’s leading health insurance provider with extensive experience providing health cover options to students from abroad studying in Australia, so you can have peace of mind that you will be well looked after while you’re here. Everything we do is for the better health of our members, so they can say, with Medibank “I am better”. Better cared for, better covered, reassured, and better off.

While having private health insurance is a mandatory condition of many student visas, it can also give you greater control over when and where you can receive medical treatment. Medibank Comprehensive OSHC is visa compliant for overseas students and offers memberships for singles, couples and families.

Planning to study in Australia?
We covered more than 400,000 surgeries in the 2015 financial year so our members felt supported when they needed it the most.

We paid out $5.1 billion in member benefits in the 2015 financial year for better health and value for our members.

We covered more than 1.2 million hospital admissions in the 2015 financial year for peace of mind for our members.

We offer convenient access Australia-wide, with 76% of all private hospitals being contracted Medibank Members’ Choice providers, for greater choice for our members.

Medibank is Australia’s leading health fund, with 3.8 million members.

We are committed to providing our members affordable and high quality care, and offer an extensive health provider network, called Members’ Choice.

Here are just some of the reasons why our members choose us:

- We paid out $5.1 billion in member benefits in the 2015 financial year for better health and value for our members.
- We covered more than 1.2 million hospital admissions in the 2015 financial year for peace of mind for our members.
- We covered more than 400,000 surgeries in the 2015 financial year so our members felt supported when they needed it the most.
- We offer convenient access Australia-wide, with 76% of all private hospitals being contracted Medibank Members’ Choice providers, for greater choice for our members.

Please Note: Members’ Choice information current as at October 2015.
Medibank’s extensive health provider network

**What is direct billing?**
Direct billing means the doctor will bill Medibank directly for your visit. Please note, there may be some costs that are not covered by Medibank.

**What is ancillary?**
Ancillary (also known as Extras) is for services not included in Medibank Comprehensive OSHC, such as optical and dental. You can purchase Ancillary cover separately from Medibank though.

Please Note: Medibank network current as at October 2015. Direct billing centres current as at April 2016.
* Limited services available at some retail stores.
Medibank Comprehensive OSHC can help international students to cover the cost of a range of in-hospital procedures such as tonsil removal as well as included out of hospital medical services, such as visits to a general practitioner (GP), or specialist services like x-rays. It can also assist with the cost of a range of medicines and emergency ambulance services. Waiting periods apply for some services.

When does my OSHC start?

- If you pay your premium before you arrive in Australia, your cover starts from the date of your arrival. If you arrive on a date other than your expected date of arrival, please call us on 134 148 so that our records can be changed to reflect the appropriate commencement date.
- If you pay your premium after you arrive in Australia, your cover starts when you pay your premium, unless you have nominated a later date to be your commencement date, or on the date you transfer from your current health fund.
- Benefits cannot be paid until Medibank has received your premium. If you pay your premium through your education institute, there may be a short delay before Medibank receives it.
- Please note that your OSHC will not automatically renew. You can go online to renew your cover through our Online Member Services (OMS) portal.

What is a waiting period?
A waiting period is the amount of time you need to be on your cover, before a benefit will be paid.

What is a premium?
A premium is the amount to be paid for your insurance cover.
If you get sick, usually a general practitioner (GP) is the first point of contact unless it is an emergency. A GP is a doctor that can advise you what to do next.

You can visit them for more minor medical problems such as a stomach ache, cough or fever. They can also prescribe medication to treat your condition and refer you for a blood test, x-ray or specialist doctor if you need one.

How does having Comprehensive OSHC help?

The Medicare Benefit Schedule (MBS) lists set fees for medical services, including GP visits. If you need to see a GP, Medibank will cover 100% of the MBS fee. If the doctor charges more than this, you will need to pay the difference.

Medibank has developed a national direct billing service with some medical centres which allows them to bill Medibank directly for your doctor’s visit. Using a direct billing medical centre can help to reduce your out-of-pocket expenses. For a direct billing clinic listing, visit medibank.com.au/oshc/comprehensive-cover/ and click on ‘Find a direct billing medical centre’ towards the bottom of the page.

If you need to see a specialist, Medibank will cover 85% of the MBS fee.
A pharmacy is the place to go if you need to get medication.

Some of the medication can only be bought if you have been given a prescription from the doctor.

How does having Comprehensive OSHC help?

Medibank will pay a fixed benefit towards the cost of prescription-only medicines, with the exception of oral contraceptives and medicines prescribed for cosmetic purposes. You will need to pay a set co-payment amount before any benefits are paid, as well as any amount above the benefit we pay. Please note that some medication is very expensive (including medicines used for oncology (cancer) and other treatments) and you may incur significant out-of-pocket expense when purchasing these. Annual limits also apply. See table below:

**Medicine Limits:**

What are out-of-pocket expenses?

These are expenses that you will need to cover the cost of, so they will come “out of your own pocket”.
In Australia, you may go to the hospital if you have a medical emergency or if you need an operation. Australia has public hospitals (which are run by the government) and private hospitals.

Medibank has partnerships with a wide network of private hospitals, called Members’ Choice. You can choose whether you would like to be treated in a public hospital or a private hospital.

**How does having Comprehensive OSHC help?**

- Medibank will help to cover the cost of being treated in a private hospital or in a public hospital as a private patient for a range of procedures and medical services.

- Medibank has agreements with most private hospitals and day surgeries in Australia. Plus, visit a Members’ Choice hospital and you will generally get better value for money compared to a non Members’ Choice hospital, as long as the service you receive is covered by our agreement with the hospital and is included in your cover.

- Medibank will cover 100% of the cost for eligible emergency ambulance services where medically necessary.

- It’s important to understand that some costs from a visit to hospital or a doctor are not covered under Comprehensive OSHC. Having Medibank Comprehensive OSHC helps reduce your hospital and medical out-of-pocket expenses, but you may still have to pay for some things. Where possible we suggest you call us before you go to hospital so we can help you estimate what your out-of-pocket expenses are likely to be.
What benefits are paid if I go to hospital?

Medibank Comprehensive OSHC also allows you to choose your own doctor and the hospital you would prefer to attend. Listed below are the services included under Medibank Comprehensive OSHC, that we will pay benefits towards. Any charge above your benefit will form part of your out-of-pocket expenses.

100% of the MBS fee towards included in-hospital medical services

Private hospital accommodation at a Members’ Choice hospital
- overnight admission in a shared or private room
- same day admissions
- intensive care and theatre fees

Public hospital accommodation as a private patient
- overnight admission (shared room only)
